
molecular and cellular biochemistry

an international journal **volumes 38/39, 1981**

theme: the biological effects of glutamic acid and its derivatives

editor in chief
V. A. Najjar - Boston

advisory board
C. F. Cori - Boston
E. Katzir - Rehovot
A. Kornberg - Stanford
H. A. Krebs - Oxford
S. Ochoa - Nutley
F. B. Straub - Budapest
H. Theorell - Stockholm
L. F. Leloir - Buenos Aires

editorial board
P. A. Albertsson - Lund
T. Baranowski - Wrocław
G. Blobel - New York
E. Bricas - Paris
R. Caputto - Córdoba
G. N. Cohen - Paris
S. S. Debov - Moscow
J. Deshusses - Geneva
P. Desnuelle - Marseille
H. Eagle - New York
P. M. Fasella - Rome
G. Fawaz - Beirut
H. Gutfreund - Bristol
O. Hayaishi - Kyoto
G. Hers - Louvain
O. Hoffmann-Ostenhof - Vienna
L. Jaenicke - Cologne
W. L. Kretovich - Moscow
J. Larner - Charlottesville
P. K. Maitra - Bombay
H. A. McKenzie - Canberra
S. A. Neifakh - Leningrad
B. W. O'Malley - Houston
S. Rapoport - Berlin
P. W. Robbins - Cambridge
A. Rossi-Fanelli - Rome
R. Sato - Osaka
R. Schwyzer - Zürich
E. S. Severin - Moscow
A. Sols - Madrid
T. C. Stadtman - Bethesda
M. Wilchek - Rehovot

Addresses of editors

P. A. Albertsson
University of Lund - Lund

T. Baranowski
Institute of Biochemistry & Biophysics
Medical School - Wrocław

G. Blobel
Rockefeller University, New York

E. Bricas
CMRS, Université Paris-Sud - Paris

R. Caputto
Universidad Nacional de Córdoba - Córdoba

G. N. Cohen
Institut Pasteur - Paris

S. S. Debov
The First Moscow Medical Institute - Moscow

J. Deshusses
Université de Genève - Geneva

P. Desnuelle
C.N.R.S. - Centre de Biochimie et de Biologie Moléculaire - Marseille

H. Eagle
Albert Einstein College of Medicine - New York

P. M. Fasella
Università di Roma - Rome

G. Fawaz
The American University of Beirut - Beirut

H. Gutfreund
University of Bristol - Bristol

O. Hayaishi
Kyoto University - Kyoto

G. Hers
Université Catholique de Louvain - Louvain

O. Hoffmann-Ostenhof
Institut für Allgemeine Biochemie der Universität Wien - Vienna

L. Jaenicke
Institut für Biochemie der Universität Köln - Cologne

W. L. Kretovich
A. N. Bach Institute of Biochemistry - Moscow

J. Larner
University of Virginia - Charlottesville

P. K. Maitra
Tata Institute of Fundamental Research - Bombay

H. A. McKenzie
Australian National University - Canberra

S. A. Neifakh
Institute for Experimental Medicine - Leningrad

B. W. O'Malley
Texas Medical Center - Houston

S. Rapoport
Humboldt Universität zu Berlin - Berlin

P. W. Robbins
Massachusetts Institute of Research - Cambridge

A. Rossi-Fanelli
Università di Roma, Città Universitaria - Rome

R. Sato
Institute for Protein Research Osaka University - Osaka

R. Schwyzer
Institut de Biologie Moléculaire - Zürich

E. S. Severin
Institute of Molecular Biology - Moscow

A. Sols
Instituto de Enzimologia del C.S.I.C. - Madrid

T. C. Stadtman
National Institute of Health - Bethesda

M. Wilchek
The Weizmann Institute of Science - Rehovot

Contents

Introduction to 'Developments in molecular and cellular biochemistry',
by V. A. Najjar, Editor in Chief 1

1. Hippocampal glutamate receptors,
by M. Baudry and G. Lynch 5
2. Enzymatic synthesis and function of folypolyglutamates,
by J. J. McGuire and J. R. Bertino 19
3. δ-Aminolaevulinic acid and amino acid neurotransmitters,
by M. J. Brennan and R. C. Cantrill 49
4. γ-Glutamylamine cyclotransferase,
by M. L. Fink and J. E. Folk 59
5. GABA and the enteric nervous system,
by K. R. Jessen 69
6. Post-translational carboxylation of preprothrombin,
by B. Connor Johnson 77
7. Glutamate and aspartate agonists structurally related to ibotenic acid,
by T. Honoré, P. Krogsgaard-Larsen, J. J. Hansen and J. Lauridsen 123
8. GABA agonists,
by P. Krogsgaard-Larsen and E. Falch 129
9. Pharmacology of GABA-mediated inhibition of spinal cord neurons in vivo and in primary dissociated cell culture,
by R. L. Macdonald and A. B. Young 147
10. Molecular characteristics of glutamate receptors in the mammalian brain,
by E. K. Michaelis, M. L. Michaelis, H. H. Chang, R. D. Grubbs and D. R. Kuonen 163
11. Pyroglutamic acid,
by G. N. Abraham and D. N. Podell 181
12. Gamma-carboxyglumatic acid,
by J. Burnier, M. Borowski, B. C. Furie and B. Furie 191
13. Folypoly-γ-glutamate synthesis by bacteria and mammalian cells,
by D. J. Cichowisz, Siang K. Foo and B. Shane 209
14. Immunocytochemical and autoradiographic localization of GABA system in the vertebrate retina,
by Jang-Yen Wu, C. Brandon, Y. Y. Thomas Su and D. M. K. Lam 229
15. L-glutamate transport in renal plasma membrane vesicles,
by B. Sacktor 239
16. Glutamate as a precursor of GABA in rat brain and peripheral tissues,
by H. L. White 253
17. The GABA postsynaptic membrane receptor-ionophore complex,
by R. W. Olsen 261
18. The stimulation of ion fluxes in brain slices by glutamate and other excitatory amino acids,
by V. I. Teichberg, O. Goldberg and A. Luini 281

19. Alterations of central GABAergic activity in neurologic and psychiatric disorders: evaluation through measurements of GABA and GAD activity in cerebrospinal fluid, by T. A. Hare 297
20. Cellular compartments of GABA in brain and their relationship to anticonvulsant activity, by M. J. Iadarola and K. Gale 305
21. Pteroylpolyglutamates, by R. L. Kisliuk 331
22. Glutamate receptor binding in insects and mammals, by P. A. Briley, M. T. Filbin, G. G. Lunt and P. D. Turner 347
23. γ-Glutamyl transpeptidase: catalytic, structural and functional aspects, by S. S. Tate and A. Meister 357
24. Utilization of GABA in Substantia Nigra, by K. Gale and M. Casu 369
